

Shutterfly Website

Dear Parents,

I have been using a personalized website that is offered by the Shutterfly Photo site. This Shutterfly site allows teachers to share classroom photos with the parents of children in their classroom. It has been very popular with parents as they can download and print photos of their children in school.

The website also includes a calendar on which classroom events can be shared.

The shutterfly websites are secured. The only people who can post pictures will be the classroom teacher as our website manager. The only people who can view the website are those who have given their teachers permission and have had their emails added to the site list. You will only be able to access your child's class site.

If you would like to have access to the classroom web site, please fill out the form below and return it to your classroom teacher at your next class time. You will receive a Shutterfly email that contains your teacher's name when the site is up and running. If you have any questions or concerns please contact me.

Thank you,

Please print clearly
